Dear Alumni and Friends,

This has been an exceptional year at the School of Education! Exploring our history and learning more about our remarkable alumni and faculty have been leaders in improving education in North Carolina and the nation has been awe-inspiring. To paraphrase a

It is with admiration of those who laid the foundation and those who continue to build our legacy that we dedicate this Honor Roll of Contributors. Take time to read the names of our loyal donors who sustain a dynamic learning environment. And, take pride in the stories of our faculty who are living the legacy of our mission.

Thank you for making this past year one for the history book!

Sincerely,

Alumni Association

Alumni, Students, Parents, Faculty, and Friends of the University of North Carolina at Chapel Hill

Fall 2010

The University of North Carolina at Chapel Hill

Celebrating the financial investment made by alumni and friends from July 1, 2009 - June 30, 2010

Society of 1885

Gay Pew Short Browning
Assistant Dean for External Relations

Eisen Parsons is working to improve science education.

Joining the School of Education in 2023, Parsons is a research professor who is developing a program that synthesizes and analyzes the contributions of mentors used in some science education researchers exploring the influences of social contact upon science education.

Parsons teaches doctoral students in the Culture Curriculum and Change in the Masters in Arts in Teaching Program. Prior to joining the School, he taught physical science, chemistry, and math in public schools in North Carolina and worked as an assistant professor at Le Moyne College and N.C. State University.

Her service, research and teaching highlight access, equity and equality.

Parsons' work highlights the importance of mentoring roles in supporting student success and providing critical feedback that helps students navigate the complexities of science education.
